

Open Fair Book Fremont County

1924 to 2023

Dear Friends,

It is our pleasure to invite you to the 2023 Fremont County Fair. Events begin with the Junior Rodeo at Pathfinder Park on July 28 and conclude with the Livestock Auction on August 5.

Throughout the year, 4-H/FFA members and open fair exhibitors work hard to prepare their exhibits for competition. A tremendous amount of pride, talent, and effort is displayed at the Fair.

Come join us this year and enjoy the new displays and activities. There is something for all ages from toddlers to senior citizens.

See you at the Fair!

Sincerely,

Fremont County Fair Board

Admission

The Fremont County Fair does not have a general gate fee. Not all events and activities are free at the county fair. The public is invited and encouraged to visit the fair and take part in the fair activities.

IMPORTANT INFORMATION REGARDING DATES- TIMES-EVENTS

As you may be aware from last year, the 2023 Fremont County Fair is transitioning to Pathfinder Park.

While we are very excited about this, there is still a lot of logistical work that needs to be addressed. Things like check-in times, schedule of events, and location of events still need to be ironed out. Please follow your 4-H newsletters, emails

for updates. We will have available in the Extension Office 4-H/FFA schedule cards for when events will be taking place. We appreciate your patience and willingness to cooperate to continue making the transition as smooth as possible.

Pet Rock

It has not been documented nor has it been debated, however, there is no doubt about it, a rock was man's first pet. When primeval man found a rock that struck his fancy, he nurtured it, caressed it, kept it constantly at his side as any very true friend or pet would want to be. Early man found that his pet demanded little, was easy to keep and always willing to help in a time of need. It would crush nuts, chase wild animals, help him in his daily hunt, and protect him from his enemies. Yes, there is no doubt about it, rocks were probably man's first domesticated pet. It is no wonder that today's search for roots of our heritage should lead many to rediscover the merits of the rock.

As our ancestors discovered eons ago, a rock demands little attention. You can leave it unattended for a week or weekend. There is no vet bill and there are no messes on the rug, yet a rock is willing to accept your love and attention on your terms, whenever and wherever you choose.

The human animal has always looked to have others admire his pets and possessions. That is why we have horse shows and shows for cattle and dogs. Now that we are aware that the rock has been and is man's friend, it is logical that the Fremont County Fair sponsor a Pet Rock Show.

A. Competition is open to all Rockers who are willing to publicly claim and name their pet rocks.

B. All rocks entered must be mature in body and form, free from defects and man-made or caused alterations.

C. Rocks must weigh at least two ounces and no more than five pounds.
